

Service Learning

The Governing Board recognizes that service learning can enhance academic outcomes, help students develop the skills and knowledge necessary to become informed and responsible citizens, and aid in individual career development. Service learning experiences may also motivate students by providing them the opportunity to apply their studies to school and community needs and showing them that they can make a contribution to their community through involved citizenship.

Service Learning

The Board supports service learning instructional strategies as integral components of the district's curriculum. The Board encourages staff to collaborate with local public and nonprofit agencies in order to develop service learning activities that meet educational objectives, align with state and local academic standards, and address current community needs.

The Deputy Superintendent or designee shall develop a service learning plan which:

1. Integrates service learning into one or more of the core academic areas at each grade span (K-5, 6-8, and 9-12) and includes instructional formats planned by teachers and students
2. Integrates service learning into Smaller Learning Communities/Pathways student outcomes and includes integrated problem-based projects
3. Ensures that the service learning opportunities offered by the district help meet identified community needs and include a balance of on-campus and off-campus activities
4. Involves administrators, students, teachers, parents/guardians, and community members in the development, implementation, and evaluation of the district's plan, including a determination as to how projects will be evaluated as well as how supervision and transportation issues will be addressed

(cf. 6143 - Courses of Study)

The Superintendent or designee shall provide the Board with regular reports on the implementation of the plan and its effectiveness in meeting the district's goals for service learning.

(cf. 6190 - Evaluation of the Instructional Program)

Notifications

Parents/guardians shall receive information about the service learning or community service opportunities offered by the district and their benefits for both the community and the student. The district shall ask parents/guardians to acknowledge this information and provide consent before their child participates in any off-campus service activities.
