Check for Understanding
Guided Practice

Independent Practice

Some components may occur once in a lesson, but others will recur many times. Checking for understanding occurs continually; input, modeling, guided practice and closure may occur several times. There may even be more than one anticipatory set when more than one content piece is introduced.

Active Participation: Teachers will incorporate the principles of active participation and specific strategies to ensure consistent, simultaneous involvement of the minds of all learners in the classroom. Teachers should include both covert and overt active participation strategies, incorporating cooperative learning structures and brain research. Some of the possible active participation strategies include:
### COVERT | OVERT (Oral) | OVERT (Written) | OVERT (Body Movement)
--- | --- | --- | ---
• Think of | • Pair/Share | • Restate in Journals | • Body movement signals
