1	06/25/2015 06/15/2016	The 2014-2015 Parent Involvement funds were utilized to enhance Cubberley's auditorium through the completion of a media installation project that the PTA had begun several years ago, but that had lagged behind due to technological advances. The project included cabling to provide a sound and projection system, as well as a large screen, thereby making our auditorium accessible for parent seminars, workshops, and presentations. We need an iPad set up so that our parents can view in real time the benefits of ParentVUE, the SBAC resources, our district's Achievement Reports: there are so many resources that can be shared and parents appreciate seeing them during educational presentations.
