INTERVENTION PLAN**

School: Franklin

Principal(s): Maria Pilar Perossio

Submit Date:

Status: New

Intervention Focus:

Our focus is to maintain a safe & civil campus as well as support all students that need additional support in the core areas (reading, writing and math). Reading and writing are a priority across the curriculum so there is the need to support the professional development of teachers. Additionally there are several students that are second language learners and we want to ensure that they are making significant gains by providing additional tutoring and support. We also have students with special needs (medical and academic) and we want to ensure that they make progress toward their goals as outlined in their IEP's. Expanding parent involvement is another goal so that we strengthen to home to school connection.

Expected Outcome:

We expect that all students get the opportunity to excel regardless of their beginning level. We will provide several interventions to support students academically as well as meet their social/emotional needs. We plan to have regular data meetings where we create and maintain action plans that incorporate parent involvement. We plan for all students to show growth in reading, writing and mathematics as measured by the new SBAC assessment. In all content areas teachers will have assessments (district & teacher created in electives, science & history) and will expect students to show growth each quarter.

12	09/30/2015 06/30/2016	One of our school goals is to lower the suspension rate. We would like to propose having a Saturday school program for students that have continued level 2 activity (repeatedly not doing homework, repeatedly disrupting class making it difficult for others to focus, etc.) and for students that have a level 3 issue (a fight on campus, graffiti, vandalism of any sort, etc.).	Student Achievement Student Engagement Other Student Outcomes

Saturday school would be an available consequence twice a month. It could only be assigned by an administrator. For students being referred for repeatedly committing level 2 offenses the referring teacher would need documentation and evidence of parent conference prior to making the referral.

Saturday school will be run by one administrator and one teacher or support staff from 9-12 twice a month.

15	10/26/2015 06/30/2016	All core content teachers are closely monitoring student progress toward proficiency on CA standards. By the end of each quarter each department will have data based on unit assessments, teacher created assessments using Synergy's new data bank with CA standards based questions and other district assessments such as TDQ's, DBQ's and APP writing assessments. We will offer targeted instruction to students that are not meeting proficiency in either math or ELA. We will use the assessments listed above to determine which students need to be invited to participate in our tutoring program. The tutoring will be offered in 10 week sessions zero period and/or after school beginning Quarter 2. We will offer tutoring up to three times a week for an hour for 10 weeks. At the end of each quarter we will look at post assessments and the end of new quarter assessments to determine which students will be invited for the new tutoring session. Teachers will re-teach concepts that students didn't comprehend in the previous quarter to help students catch up. We plan to offer at least 12 classes of either zero period or after school. 18	11/01/2015 06/30/2016	Currently we are running a Saturday school program twice a month. We started the Saturday school program in an effort to decrease suspension rates. We use Saturday school in lieu of suspensions. We are finding it to be a successful way of managing student behaviors while keeping students in class Monday-Friday so that students don't miss instruction. We would like to expand our Saturday school program to run it each weekend. We would also like to bring in an additional teacher when the number of students exceeds 18. Saturday school tends to get the more severe discipline issues so we want to ensure a safe ratio of student to staff ratio. In addition we would like to offer classes for our ELL students on Saturdays. We would pay 1-2 teachers to work each Saturday for up to 3 hours to work on building academic vocabulary. The students would be selected based on CELDT scores and/or the use of district assessments like the AAP lessons to identify students with language needs. 25	02/01/2016 06/30/2016	Additional campus security officer time to help keep the campus safe. Currently we have a number of students being sent out of their classrooms for disrespectful and defiant behaviors. In addition several of those same students on arriving late to school. The additional campus security officer could build relationships with those students to help redirect their behaviors. That person would be assigned 40 students and that person would check in on those students by visiting their classrooms, meeting with them at lunch to check their behavior contracts and help build a sense of belonging to the school. The additional campus security officer would assist at the tardy table in the morning. That person would run a lunch detention for late students. According to our CORE survey the locker room is an area where students feel unsafe. The additional campus security officer would work closely with the PE department to assist with supervision both in the locker room and during PE classes. After school we have issues with students leaving campus.	Student Achievement Student Engagement Other Student Outcomes
