

Career Exploration and Work Readiness

Karena Agis-Jordan High School

Fatima Nelson-Cabrillo High School

Served about 500 walk-in, General Education students with Workplace Readiness Training, such as:

- I. Soft skills
- II. Interviewing techniques
- III. Resume development
(Over 400 professional resumes created!!)

In-Class Career Module presentations in General Education classrooms and in ALL Senior RSP and SDC classrooms

Increased Job Awareness for ALL students by sending job leads list every 2 weeks via school loop email.

19 students are currently pre-apprentices through our **STAR Construction Program** that can lead to a high wage career for them right out of High School

Raised Awareness of Post-Secondary Education Options by means of career exploration through internships, volunteering, and apprenticeships.!

Unscheduled students have access to career exploration and work-based learning activities that lead to career readiness

In class Presentations created awareness of the Transition Partnership Program (TPP), which helps RSP and SDC students prepare for success in the workplace.

Will have enrolled over 50 students in the TPP program by the end of the 2018-2019 school year (Compared to 15 students for the 2017-2018 school year.)
