

Introduction

This survey is designed to provide schools with data useful for fostering a positive learning and working environment that promotes academic success among all students. Your survey participation is very important so that we have accurate and useful data.

Answer the questions based on your experiences only at the school that asked you to complete it, not your experiences with the district overall or another school where you might also work.

Questions about staff or adults at the school refer to ALL staff — administrators, teachers, teaching assistants, counselors, and all other certificated and classified staff.

All responses are anonymous and confidential. A few questions ask for personal information, such as the work you do at the school, how long you have done it, and your race/ethnicity, but the survey reports will contain only percentages for all respondents combined. If there are less than 5 respondents in any group, those data are not made available. Thank you for taking this survey!
