## Synergy Online Assessment Platform

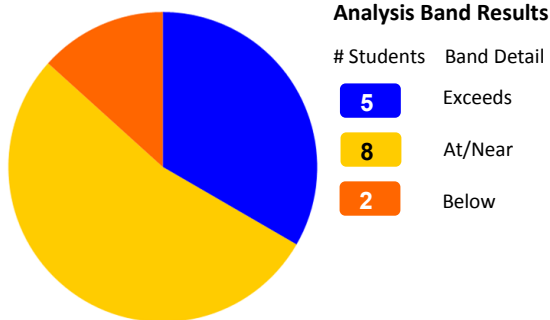

*Create your own assessments quickly and easily using a Common Core item bank*

 **Synergy**<sup>®</sup>  
Assessment

*Grading and entering scores is no longer a hassle. The process is simple and easy.*

1. Students take standards-based tests online
2. The system grades the tests
3. Students' scores are categorized into performance bands that you can customize
4. The system enters scores into your online Grade Book or School Loop
5. The system populates scores into achievement reports

Overall class performance is color coded by performance bands

## Immediate Results

Using data results to guide your instruction or professional development is only a click away!

The Synergy Assessment Platform takes student test results and creates an item analysis so that teachers know exactly which standards to reteach.

	Overall Score	Q1	Q2

The Assessment Platform also groups students into color-coded bands based on test results making it convenient for teachers to create flexible groups and differentiate instruction.

*Teachers may choose to share student data with parents through the system.*

*Navigating the SBAC can be difficult for students. Now, they can practice using the Assessment Platform.*

Not only is the Assessment Platform easy and convenient, it also provides students with the content and process needed to be successful in taking the SBAC.

The Assessment Platform simulates the SBAC test-taking experiences by inviting teachers to use technology-enhanced question types such as Multiple Correct, Constructed Response, Multi-part and Number Line. There are over a dozen question types from which to choose.

Teachers can select the question type, DOK level, and SBAC claim. For example, teachers could specifically identify Multiple Correct, DOK Level 2, within the Claim of Concepts and Procedures.
