**Continuous Improvement Expenditure Plan
2019-2020
INTERVENTION PLAN**

School: Muir **Principal(s):** Sophia L. Griffieth **Submit Date:** March 19, 2019 **Status:** Approved

Intervention Focus:

Interventions at John Muir K-8 Academy will promote the success of all students. The interventions will focus on closing the achievement gap that exists among the English Language Learner and African-American subgroups. The proposed additional personnel, including the TOSA, are primarily dedicated to the achievement of these two subgroups, as well as other students with academic and behavioral needs. The Assistant Principal will support struggling students in the identified subgroups. A School Nurse Inspector will also support the academic success of all students.

Expected Outcome:

- *Increased student achievement
 - *Increased teacher proficiency with strategies designed to support struggling students, students engagement, differentiation and small group instruction
 - *Increased student attendance and engagement
 - *Decreased suspensions
 - *Appropriate support using research-based methods for students that have not achieved academic grade-level standards
-
