## The Superintendent Parent Connection: Purpose

Create opportunities for human connection between parents/caregivers, superintendent and district staff.

Provide districtwide information for parents/caregivers to enhance access and connection to schools and district resources.

Engage in two-way communication with parents/caregivers to inform continuous improvement efforts.

## The Superintendent Parent Connection: Assumptions

Parents/caregivers are their child's first teachers.

Each parent/caregiver wants their child to have a school experience characterized by high expectations and care.

Students' lives are enhanced when parents/caregivers are involved.

A home - school connection fostered by teachers and school staff positively contributes to student success.

Learning Acceleration and Support Plan

The Long Beach Unified School District has worked with various local advisory groups and national partners to develop the Learning Acceleration and Support Plan. The school district began this planning based upon students' needs, blending together various resources – including significant and newly available pandemic recovery funding from the state and federal governments – to provide the best possible learning opportunities and related support. This web page also provides supporting materials from public presentations leading up to the posting of the full plan in summer 2021.
